

Many Thanks to Our Major Sponsors!

Habitat Yukon is very fortunate to receive materials and in-kind donations from both local and national businesses, organizations and governments. Below are just a few of our major sponsors.

The Yukon Government, specifically the Dept. of Community Services and the Yukon Housing Corp. continue to support Habitat Yukon by assisting us in acquiring land and helping with mortgages. Their help is much appreciated.

Our local window and door manufacturer, Northerm Windows, is a significant contributor. They provide deep discounts and much-needed expertise. The same can be said of Kilrich Industries. As well as providing us with building supplies at very good prices, they are always available to help with any construction concerns or issues.

Arctic Backhoe has been a consistent and generous contributor to HFHY's work by providing excavation work at our sites. The same can be said of our local Home Hardware. They not only provide us with building supplies, they have helped us ship other donated products from southern Canada.

Whirlpool Canada is a very generous donor. They contribute a new fridge and stove to every new Habitat home in Canada. Our local Brick store assists us with the deliveries.

Hunter Douglas is also very generous. **Hunter Douglas** They supply blinds for all the windows in our partner families' new homes. A local company, Windows and Walls, installs the blinds.

Owens Corning manufactures many different insulation products. They have been supplying the fiberglass blow-in insulation that we use in our roofs. Our local Home Hardware store helps in shipping this product to us and Energy North, a local company, does the installation.

Whitehorse, Yukon Y1A 5P7

Our Goal:
"By the end of 2017, HFHY will have provided affordable homeownership to 20 new families."

Schneider Electric manufactures electrical products such as panels and circuit breakers. These components are given to us to use in our homes. The RBC Foundation has also been a consistent contributor with \$30,000 given over the past 3 years.

RBC Foundation

These donations contribute many thousands of dollars and are a vital component to our ability to keep our energy efficient homes affordable.

BMO Supports Habitat Yukon

Also in April, the BMO Corporate Donations Program donated \$2,500 towards Habitat Yukon's efforts to provide safe, decent and affordable homes for lower-income Yukon families. This is the first installment of a \$5,000 donation. Mr. Stephen Lee, the Branch Manager, presented the cheque.

NORTHERM WINDOWS FUNDRAISER A SUCCESS!!

Over \$900 was raised for Habitat Yukon at Northerm's Pancake Breakfast as part of their annual "Garage Sale" at their manufacturing centre in Whitehorse. Many thanks to the management and staff at Northerm for their continued support and the volunteers who helped out.

Friends of Habitat Yukon

At the Habitat Yukon Annual General Meeting held in April, the following people were named to the Board:

- Arthur Mitchell – Chairperson
- Pat Hogan – Vice-Chairperson
- John Robbins – Treasurer
- Erica Zwaneveld – Secretary
- Terry Rufiange-Holway
- Terry Buckle
